* For cylinders PES serie 450

- (1) High foot sold individually
- (2) Corresponds to a set of 2 parts.
- (3) Trunnion supplied **fixed to the barrel** at dimension XV specified when ordered:
The centre trunnion code fixed and the dimension XV along with orientation code of the trunnion with respect to the ports must be added to the cylinder code.
(example: 45000020 + options 410523 / XV = 210 + 410002)
- (4) Trunnion supplied **loose** on cylinder barrel for on-site adjustment to required dimension:
The centre trunnion code loose and the dimension XV along with orientation code of the trunnion with respect to the ports must be added to the cylinder code
- (5) Only for PEC series 449

NOTE: With the exception of the centre trunnion, mountings are delivered separately.

Centre trunnion orientation

- Trunnion axis is perpendicular to supply ports, code : **410002** (standard orientation)
- other position upon request, code : **410003** (except PEC ISO Ø 32 to 50 equipped with centre trunnion MT4 type A)

(5) These accessories allows accurate angular compensation adjustment spherical of 4°

(6) This accessorie allows accurate angular compensation adjustment spherical of 4° and radial of 0,7 mm

(7) Ø125 to 200 mm: Clevis with axis locking pin

NOTE: With the exception of the centre trunnion, mountings are delivered separately.

Dimension XV is specified on order

- ① : Stroke
- ② : Except when dimension XV is specified on order. the position of the trunnion may be adjusted along the unit. Consequently, the centre trunnion is not screwed on and must be adjusted after delivery.
- ③ : 8 locking screws
- ④ : Mounting of the centre trunnion by pin (option)

All leaflets are available on: www.asconumatics.eu
