

SPOOL VALVES

pilot operated or air operated, spool type single/dual solenoid or air, aluminium body, "NAMUR" style, 1/4 to 1/2 stainless steel screws

3/2-5/2

Series 551

FEATURES

- Spool valve protected against food and beverage environment thanks to stainless steel screws
- The solenoid operated spool valves have threaded port connections and NAMUR interface
- The same spool valve can be adapted for 3/2 NC or 5/2 functions for controlling double-acting and single-acting actuators
- All the exhaust ports of the spool valve are connectable, providing better environmental protection. Particularly recommended for sensitive areas, such as clean rooms, and applications in the pharmaceutical and food processing sectors
- The valves offer environmental protection against the ingress of liquids, dusts or other foreign matter (environmentally-protected construction)
- The solenoid valves satisfy all relevant EC directives
